

Case Insensitive

English Language

- ① I want coffee
- ② i WANT COFFEE
- ③ I want COFFEE

Structured Query Language

- ① show databases;
- ② SHOW databases;
- ③ show DATAbases;

① If we change type of letters from capital letters to small letters (or) from small letters to capital letters, the meaning of sentence/line won't change

Case Insensitive

We can write query in any form like mixing of Small and Capital letters

Case Sensitive

must follow the rule

- ① Capital
- ② Small ✓

Technology

Rule:- must have to follow it.

Assume SQL: - you have to write all queries of SQL in only Capital letters

① SHOW DATABASES; ✓ X

② SHOW DATABASES; X X

③ SHOW databases; X X

④ show databases; ✓

very Important

SQL is a case Insensitive Language

Query → small and capital letters
