Remember: Delete vs Truncate

Delete

1. Deletes specific row/rows
2. Deletes complete Data also (one by one row)

3. It is slower

(where possible) ✓

Truncate

1. Not possible to delete specific row/rows
2. Deletes complete Data (at one)
3. It is faster

(where not possible)

---

① which concept i have to select when

→ If we want to delete complete data then go for "Truncate".

→ If we want to delete only specific row/rows then go for delete
